**Have extensive list of other ice climbs at lower grade levels (WI3) not listed here. Rock climbing I am more of a moderate climber and comfortable leading at 5.8 (occasional 5.9) trad. Previously lead at the 5.10 level, but those days are behind me!**

**Previously have climbed multiple routes in the western US, in the late 90's prior to my hiatus from climbing (kids.....). Liberty Ridge (Mt Rainier), Disappointment Cleaver (Mt Rainier), North Ridge Mt Baker, Denali (West Buttress).**
